THE ULTIMATE WOOD HEAT

The most efficient, easiest-to-operate EPA Step 2 Certified Outdoor Wood Furnace

"It is so much more convenient than having to constantly load the indoor wood burner and I am using about half the wood. I am more at ease with the fire outside away from the house along with the dust, bugs and ash." -- Lucas

- Top performing** - use up to 60% less wood compared to other methods of wood heating
- Built to last** - titanium-enhanced stainless steel firebox ensures zero corrosion inside firebox
- Peace of mind** - keep the fire and mess outside; safer, more convenient wood heat. See furnace performance and operation from anywhere with your smartphone (visit MyFireStar.com/demo to see a live demonstration)

Miller Co-31 Acres \$269,000

Great piece of ground with road frontage all along the north side of the property. This place is loaded with character and potential. It consists of approximately 31 acres of ground running along a county road with a ranch style brick house, three outbuildings, three old barns, and a 30x40 shop. The land itself is situated above the house with a good ratio of timber to open ground and features a beautiful rock bottom creek running along most of the northern boundary. The land would make for an excellent small cattle operation with an older barn and corral featuring a continuous flow concrete waterer fed by an artesian well. It would also make for great hunting ground with the creek running along its northern boundary and the cover provided by the timber. This place is bordered by plenty of crop ground to keep those deer cutting right through it. The house is an older brick ranch style house built in the early 70's. It features three bedrooms and two baths as well as a partially finished basement. With a little work it would make for the perfect little family home. The kitchen is due for a remodel but has loads of potential with its size. The partially finished basement has

a kitchen area with a sink, its own bathroom, garage with opener, and a walk out door. The house is currently set up on gas heat but still features baseboard electric heat, and the hook ups for the quick installation of a wood burning stove. The house has its own water and is also fed by the artesian well. The shop is a 30x40 shop with a partial basement. Half of the shop is insulated with a roll up garage door with opener, and the other half is not insulated with a sliding door. It also features gas, water, and electric. This is an excellent shop for tinkering and/or storage. Could see the insulated half being a great man cave or she-shed. The partial basement has two doors for entry and makes for excellent storage, has a low ceiling but plenty tall enough to park an atv or lawnmower in. The old barns have tons of character and are made up of that old barn wood. The biggest of the barns located by the corral has a partial concrete floor and hay loft. Three of the smaller outbuildings also feature a concrete floor, two of which are insulated and could be easily hooked back in to electric. All-in-all this a beautiful family home with loads of potential. If you have any questions feel free to contact **Seth Holt** at **816-447-4660** or **sholt@missourilandco.com**.

Miller Co-297 Acres \$819,750

Century Farm now on the Market! Located a short thirty minute drive from Lake of the Ozarks is this working cattle ranch that provides one hundred fifty plus acres of improved pasture and one hundred forty plus acres of hardwood timber. Eight ponds for the cattle and wildlife, a wet weather creek, two deep wells that provide water for the freeze proof concrete water tanks. The owner indicates the improved pasture ground will support one hundred cow/calf pair. The grass is made up of fescue, timothy, orchard grass and clover. The farm is very easy to see using the numerous trails. A thirty foot by forty foot concrete floor, steel truss building with electric and water will provide storage for your farm machinery. The historic barn with corral and silo will provide additional shelter or hay storage. A former turkey barn is also available for use. This property would be an ideal investment opportunity as a three phase electric line crosses the entire tract. There are multiple access points along the one and one half mile of State Hwy U road frontage. This property is bordered on the East and

North by State Hwy U. Deer and Turkey are abundant, you won't have any trouble filling your tags. The seller mentioned the harvest of a sixteen point Buck on the property, his personal best was a twelve point Buck, and indicated many eight and ten point bucks seen. The land has many hidden small clearings that would make ideal food plot locations, and the timbered ridge is sure to see a lot of traveling buck action during the rut. Many pinch point locations to choose from for your tree stands. Farms like this do not make the market very often, so schedule a showing soon. Shown by appointment only, call **Sonya Ballard** at **573-308-8253** or email at **sballard@missourilandco.com** or call **Danny L. Miller** at **573-528-1489** or **dmiller@missourilandco.com**

Maries Co-19.3 Acres \$45,000

Places like this 19.38 Acre m/l Honey Hole are hard to find! Located about 10 minutes North on Hwy 133 From Dixon, Mo and about 40 minutes from Jefferson City, puts this in a highly desired area. Filled with oak trees, large food plot, wet weather creek and a thick holler towards the south end of the property makes this a perfect place for all wildlife to thrive. With the previous owners harvesting mature whitetails and turkeys in past seasons, this place shows you that you don't have to have a large tract, just the right one. Call **Robert Baker** @**573-855-3442** or **rbaker@missourilandco.com** for a showing.
